

## FIRE LOST COMBAT!

### FIRE PROTECTION PIPE-CUFFS

**PS** and **PS-25** – best quality fire protection of plastic pipelines. Fire protection walls assures great protection against wild power of the breaking out flames. Weakest points on the walls are pipelines, through them spread of the fire is possible. Easy applicable pipe-cuffs made of combustible material in case of fire completely close every plastic pipes.

*SAVE YOUR VALUES BY PS AND PS-25 FIRE PROTECTION PIPE-CUFF MANUFACTURED BY DUNAMENTI FIRE PROTECTION Co.!*

### TECHNICAL DATAS

<b>Material of PS pipe-cuffs</b>	Metal house inside with multiple-layer fire protection laminate
<b>Material of PS-25 pipe-cuffs</b>	Multiple-layer fire protection laminate
<b>Efficiency</b>	Combustible, extentional factor 1:20
<b>Application</b>	Easy applicable, strong efficiency (onto one side of the roof, onto each side of the wall)
<b>Characteristics</b>	Water-, light-, heat-, freeze, UV-radiation-proof, chemical-resistant, free of organic solutions.
<b>Installation PS pipe-cuffs</b>	Screwed onto the wall
<b>Installation PS-25 pipe-cuffs</b>	Put into the wall and build up.
<b>Grade of fireproofness</b>	up to 180 minutes, Guarantee for 15 years
<b>Dimensions of pipe-cuffs</b>	Ø50, Ø63, Ø75, Ø90, Ø110, Ø125, Ø160, Ø200, Ø225, Ø250
